To the Patent Office:

Response to a Final Official Communication mailed by the U.S. Patent Office on April 21, 2005, the applicant attempted to amend the claims in accordance with an indication of allowable subject matter for claims 6-8, 10, 16-18, 20, 26-28 and 30 and cancel the rejected claims. In addition, the applicant attempted to respond to certain Section 112 objections raised by the Office. In addressing the Section 112 objections, the applicant submitted remarks as well as further claim amendments. In a subsequent advisory action, the Office has stated that the amendments raise new issues that would require further consideration. More particularly, the Office alleges that the limitation of "enabling a website to transfer information" requires further consideration and/or searching. The applicant has removed this limitation from the claims and has placed the claims in condition for allowance.
